Re: Request for Information to "Amole" about Sanitary
Landfill Company (IWD) Site 1855 Cardington Road,
Montgomery County, Moraine, Ohio

Dear Ms. Mancos:

We represent Amole Incorporated, 2425 W. Dorothy Lane, Dayton, Ohio. This will confirm our telephone conversation on March 4, 1987 concerning the above matter. As you will recall, my call to you was in response a recent letter received from Mr. Norman Niedergang, Chief, CERCLA Enforcement Section, which discussed possible enforcement options as a result of a perceived failure by Amole Incorporated to respond an EPA request for information dated July 14, 1987.

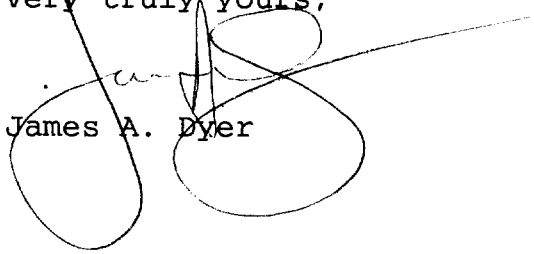

As I mentioned, in response to the previous request for information we sent the enclosed letter to Ms. Debra Garber, Assistant Regional Counsel for Region V, explaining that my client is a recently formed corporation which we do not believe (based on the information you provided us) was in existence at the time any of the alleged deposits at the Sanitary Landfill Company site were made. The EPA's confusion apparently results from the name of my client which still contains the word "Amole". As is explained more fully in the letter to Ms. Garber, my client also did not assume any Superfund liabilities when it purchased assets from a previous owner, Amole, Inc. For all of these reasons, we do not believe our client should be involved in this dispute.

Please let me know if I can provide you with any other information. In the meantime, I understand from our conversation that my client does not need to do anything further to respond to the July 14, 1987 request for information directed to "Amole" until further notification.

Ms. Ruth Mancos

I appreciate your attention to this matter.

Very truly yours,

James A. Dyer
